Dukane-Seacom Move to Sarasota, FL Completed

Dukane-Seacom Inc. is pleased to announce the completion of our transition/move to our Sarasota, Florida facility. In a process that took over a year to complete, Dukane-Seacom constructed and certified a brand new facility with state of the art fabrication and ultra-sonic test capabilities. This facility is co-located with our sister company Radiant Power Corp. Both companies will operate from this location providing products and services to a common customer base.

The new Dukane-Seacom facility houses two 50-thousand gallon ultrasonic test tanks, providing over double the test capacity as the St. Charles, Illinois facility. Additionally by utilizing LEAN concepts, the new Dukane-Seacom production area optimizes assembly methods using single-piece flow processes to maximize throughput. Integrating quality/inspection steps into the production processes ensures the products adhere to customer requirements.

Facility Address:

Dukane-Seacom Inc.

7135 16th Street East, Suite 101

Sarasota, FL 34243

Main phone: 941-739-3200

Dukane-Seacom supplies underwater location products to a global customer base. The Dukane Seacom underwater acoustic beacons are used on the majority of the world's aircraft fleet, worldwide military, helicopter operators, NASA, offshore oil industries, maritime/shipping, oceanographers and marine biologists. Additional products include custom acoustic locating systems, beacon test equipment, and underwater receiving systems.

Sarasota, FL-based Radiant Power Corp is a leading designer and manufacturer of emergency power supplies, power management systems, passenger comfort electronics, and sensors and instruments in the aerospace market for over 30 years. Radiant Power's products are installed on several models of commercial, business, and general aviation aircraft, as well as military fixed wing and rotorcraft.

HEICO Corporation is engaged primarily in certain niche segments of the aviation, defense, space, medical, telecommunication and electronic industries through its Hollywood, FL-based Flight Support Group and its Miami, FL-based Electronic Technologies Group. HEICO's customers include a majority of the world's airlines and overhaul shops as well as numerous defense and space contractors and military agencies worldwide in addition to medical, telecommunication and electronic equipment manufacturers. For more information about HEICO, please visit our web site at <http://www.heico.com>.
