

FOR IMMEDIATE RELEASE

**RADIANT POWER CORP HOSTS THIRD PLENARY MEETING OF RTCA'S
SPECIAL COMMITTEE SC-235**

SARASOTA, FL – April 29, 2016, Radiant Power Corp, a HEICO company (NYSE: HEI.A and HEI) hosted the third plenary meeting of RTCA's Special Committee SC-235 during the week of 25 April 2016 at their facility in Sarasota, FL. The charter of this committee is to address safety concerns regarding non-rechargeable Lithium batteries and to establish new minimum performance and safety standards for these devices.

The meeting was attended by an international group of representatives from regulatory agencies, airframe manufacturers, equipment manufacturers, and battery manufacturers.

"Radiant Power is proud to be actively involved in such an important activity," said Jeff Densmore, Director of Engineering for Radiant Power Corp.

Sarasota, FL-based Radiant Power Corp is a leading designer and manufacturer of emergency power supplies, power management systems, passenger comfort electronics, and sensors and instruments in the aerospace market for over 30 years. Radiant Power's products are installed on the majority of commercial, business, and general aviation aircraft, as well as military fixed wing and rotorcraft.

HEICO Corporation is engaged primarily in certain niche segments of the aviation, defense, space, medical, telecommunication and electronic industries through its Hollywood, FL-based Flight Support Group and its Miami, FL-based Electronic Technologies Group. HEICO's customers include a majority of the world's airlines and overhaul shops as well as numerous defense and space contractors and military agencies worldwide in addition to medical, telecommunication and electronic equipment manufacturers.
